## ***To the Members of the Board of Public Education for Bibb County and Citizens of Bibb County, Georgia:***

The Comprehensive Annual Financial Report (CAFR) of the Bibb County Public School District (District) for the fiscal year ended June 30, 2006 is hereby submitted. It has been prepared by the Finance Division and conforms to generally accepted accounting principles as applicable to governmental entities. State law requires that every school district publish within six months of the close of each fiscal year a complete set of audited financial statements. This report is published to fulfill that requirement and provides full disclosure of the financial operations of the District for the fiscal year ended June 30, 2006. The District's Administration maintains full responsibility for the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to fairly present the financial position and results of operations of the District as measured by the financial activity of its various funds. All disclosures necessary to enable the reader to gain the maximum understanding of the District's financial activity have been included.

The Comprehensive Annual Financial Report is presented in four sections: Introductory, Financial, Statistical and Single Audit.

- The *Introductory* section includes this letter of transmittal, an organization chart and a list of the Board's principal elected and appointed officials.
- The Independent Auditor's Report is located at the front of the *Financial Section* of this report. Mauldin & Jenkins, LLC, has issued an unqualified ("clean") opinion on the Bibb County Public School District's financial statements for the year ended June 30, 2006. The *Financial Section* also includes the Management's Discussion and Analysis (MD&A) and all financial statements and schedules as required by the Governmental Accounting Standards Board (GASB) Statement #34. This letter of transmittal is designed to complement the Management's Discussion and Analysis and should be read in conjunction with it.
- The *Statistical* section includes selected financial and demographic information, generally presented on a multi year basis.
- The *Single Audit* section contains schedules and auditor's reports required for the District to comply with the Revised Single Audit Act of 1996 and U.S. Office of Management and Budget Circular A-133 *Audits of States, Local Governments, and Non-Profit Organizations*.

## PROFILE OF THE BIBB COUNTY PUBLIC SCHOOL DISTRICT

The Bibb County School District is a political subdivision of the State of Georgia, the boundaries of which are coextensive with the territorial limits of Bibb County. The District is separate from and legally and fiscally independent of the Board of Commissioners of Bibb County and all other political subdivisions in the state. The District is the only public school district in Bibb County and is vested, pursuant to constitutional authority, with the power to conduct a system of public education within its boundaries. The District operates public schools in unincorporated portions of Bibb County and in the incorporated cities of Macon and Lizella, Georgia.

The Board of Public Education for Bibb County (Board) is the official governing body of the District and as such is responsible for the operation of all public schools within Bibb County. Annually, the Board elects a President, Vice-President, Treasurer and Secretary. The Superintendent is appointed by the Board for a term that is determined by the Board. As its Chief Executive Officer, the Superintendent has general supervisory and administrative responsibility for all departments and personnel of the District. The Georgia Constitution provides that the management and control of the School District shall be under the Board of Education. The eight elected Board members have decision-making authority and the power to designate management and significantly influence operations.

Student enrollment in September, 2005 was over 25,000, about the same as the prior year. Approximately 70% of our students receive free and reduced price lunches. The purpose and responsibility of the District is to provide a thorough and efficient educational program for all students. The District employs in excess of 3,500 employees, including over 1,700 teachers, committed to ensuring that each child has access to programs and services that are appropriate to his or her educational needs. From pre-kindergarten through the twelfth grade, students learn in an atmosphere that promotes cultural understanding and respect, while holding the highest standards for academic achievement and personal responsibility.

The standard curricula in our twenty-seven elementary, six middle and six high schools provide a solid educational foundation. These currently include three elementary magnet schools, one magnet middle school, four magnet high schools and one high school offering career opportunities.

Among our five specialty schools, we have two facilities that meet special needs, *Butler Early Childhood Center* and *Elam Alexander Academy*. Butler also provides a pre-kindergarten program for 4-year olds. We also have the *Renaissance Academy*, which offers students a second chance to complete their high school education in a non-traditional setting. Students who may have job-related or family responsibilities, have dropped out of school, or are currently struggling in high school, are given individual academic attention at Renaissance Academy. Also among our list of special schools is a *Teen Parent Center* where pregnant and parenting middle and high school students can work toward their high school diploma. *Joseph Neel Academy* is for students who are removed from their classrooms due to disruptive behavior. There they encounter a disciplined environment and regular counseling about their behavior, attitudes, and schoolwork until they earn their way back to their home schools.

Our mission is to provide a high quality education for all Bibb County students in a safe, comfortable environment and to make use of all human and technological resources in preparing graduates for post-high school objectives. Our vision is one of achievement and performance for every school, for every classroom, and for every child.

Other highlights of the Bibb County School District include:

- International Baccalaureate Program
- High School Magnet Programs: Fine Arts; Law; Science and Health; Pre-Engineering; and Career, Technical and Agricultural Education
- Gifted Programs
- System-wide Special Education Instruction
- School House Health Services
- Mentors and Tutoring Programs
- After School Programs
- Technology/Career Education Programs
- Apprenticeship Programs
- Athletics and Physical Education

## **MAJOR INITIATIVES**

**Teaching and Learning Initiatives** The following programmatic initiatives were implemented or expanded during the FY2006 school year:

- Expansion of AP (Advanced Placement) and Pre-AP courses
- Expansion of CTAE (Career, Technical and Agricultural Education) courses
- Continued rollout of the Georgia Performance Standards to include new standards in English (all grades), Science (grades 6 and 7, 9-12), and Math (grade 6)
- Addition of an inclusive Kindergarten class at the Butler Center
- Implementation of the CIS Performance Learning Center module at the Renaissance Academy
- New Music, Drama and Art curricula
- School staff allocation formula change for Middle Schools and Grades 4-5
- Combined regular/special education at the Middle School level

**Balanced Scorecard** Several years ago, the Bibb County School District adopted and began implementing a balanced scorecard approach to measuring the performance of the School District in achieving its goals. The system balanced scorecard is an extension of strategic planning for the District in its efforts to maximize student achievement. The central office balanced scorecard was rolled out in FY2005. The central office balanced scorecard cascades from the system-wide balanced scorecard and joins in its efforts to improve student achievement and organizational effectiveness. The scorecard also measures the effectiveness of the District as a whole in achieving its strategic performance objectives. The District-wide Strategic Objectives are as follows:

- The Bibb County School District will ensure that all students attain high levels of achievement in all content areas by focusing on teaching and learning the Georgia Performance Standards (GPS).
- The Bibb County School District will recruit, employ, develop and retain a quality workforce that achieves the mission and goals of the organization.
- The Bibb County School District will ensure a safe and conducive learning and working environment for all.
- The Bibb County School District will meet the needs for information through technological services that support performance and desired results.

**The 2005 Capital Improvement Program** Encouraged by the success of the 1999 Capital Improvement Program, on September 20, 2005, 71% of the voters of Bibb County once again voted in favor of a referendum approving a one-cent Special Purpose Local Option Sales Tax for capital improvements. The referendum approved a maximum collection of \$165.6 million over the period covering January 1, 2006 through December 31, 2010. Highlights of the new Capital Improvement Program are:

- 3 new high schools (2 to replace existing facilities)
- 2 new middle schools (1 to replace an existing facility)
- 1 new elementary school (to replace an existing facility)
- New early childhood center (to replace existing facility)
- Classroom additions at 4 schools
- Renovations at 9 elementary schools, 1 middle school, 1 high school, Neel Academy and the Career Center Annex
- School based technology innovations
- Purchase new and replacement school buses and maintenance, delivery and security vehicles
- Athletic facility improvements

The referendum also approved the issuance of general obligation bonds up to \$76.5 million repayable from the proceeds of the penny sales tax. General Obligation Bonds were issued on December 29, 2005 (\$56 million) and February 1, 2006 (\$14.535 million).

## **ECONOMIC CONDITION AND OUTLOOK**

The primary strength of our local economy continues to be diversification as well as the fact that we are located in the "Heart of Georgia" at the crossroads of Interstates 75 and 16, approximately 80 miles south of Atlanta and Hartsfield-Jackson International Airport. Macon is the place where people come from all over Middle Georgia to work, receive state of the art medical services; attend Medical, Engineering, and Law Schools; receive award winning information technology training; and shop at the second largest mall in Georgia.

At approximately 255 square miles, Bibb County is the 121<sup>st</sup> largest of Georgia's 159 counties. The county's population, which ranks 12<sup>th</sup> in the State of Georgia, is estimated to be 154,918 by the U.S. Census Bureau for the year ended 2005, and continues to be about the same as prior years due to population decline in the city offset by growth in the county. According to the Georgia Department of Labor, Bibb County had a 2005 civilian workforce of 72,383 with a 5.8% unemployment rate versus a 5.1% unemployment rate in 2004.

A listing of the major employers of Bibb County, Georgia is provided in the schedules which follow:

<b>Largest Private Employers<sup>1</sup></b>	
Employers	# of Employees
GEICO	3,634
Mercer University	1,338
Coliseum Medical Center	1,300
R.J. Reynolds, formerly Brown & Williamson Tobacco Company	1,251
YKK (USA), Inc.	877

<b>Largest Public Employers<sup>1</sup></b>	
Employers	# of Employees
Medical Center of Central GA	5,195
Bibb County Schools	3,500
City of Macon	1,606
Bibb County	894
US Postal Service	678

<sup>1</sup>*Macon - Bibb County Industrial Authority*

Over the past 12 months, Bibb County has lost approximately 2,000 jobs due to existing industry closings at Brown & Williamson Tobacco Corporation, Keebler, and First Data. Fortunately, two newly constructed projects have begun to fill 500 positions at the Bass Pro Shops Distribution Center and Retail Store and the Sara Lee Foods Distribution Center.

In partnership with the Macon Economic Development Commission and the Macon-Bibb County Industrial Authority, Bibb County has located a 214,000 sq. ft. refrigerated/freezer distribution center for Sara Lee Foods, Inc. at I-75 Business Park and a 316,000 sq. ft. fiber-cement building product manufacturing plant for Nichiha USA at Airport South Industrial Park. The Sara Lee project was scheduled to be operational in August 2006 and the Nichiha USA project is scheduled for completion in December 2007. These projects, along with several existing industry expansions and other new industry recruitments, will create 328 additional jobs with investments totaling \$103.5 million.

Located in neighboring Houston County, Robins Air Force Base, the largest industrial complex in Georgia, employs a workforce of 19,760 civilian and military members with an annual net payroll of \$1.47 billion. Other salaries to on-base service contractors total \$100.4 million. In FY2005, Robins had a significant economic impact on the State of Georgia - \$4.2 billion. Approximately 2,200 Bibb County residents are employed at Robins with salaries in excess of \$154 million. Federal annuity retirement benefits totaling \$100.5 million are paid to 4,958 Bibb County residents.<sup>1</sup>

## **FINANCIAL INFORMATION**

**GASB Statement #34** In compliance with GASB Statement #34, the District's basic financial statements are composed of district-wide financial statements, fund financial statements, and notes to the financial statements.

The focus is on the School District as a whole rather than on individual funds. By providing a broader, district-wide perspective, while maintaining the traditional features, the annual reports are easier to understand and more useful to stakeholders, such as investors and creditors. The district-wide statements are prepared on an accrual basis of accounting for all activities of the District. Under the accrual basis, all revenues and costs of providing services are reported, not just those received or paid in the current year or soon thereafter. This approach moves governmental accounting closer to financial reporting in the private sector. The district-wide financial statements are prepared on an economic resource measurement focus, which includes all of the School District's resources, capital and financial, current and long-term. Specifically, the district-wide financial statements consist of two statements: 1) a statement of net assets and 2) a statement of activities. As a result of GASB #34, the District now provides information about the cost of delivering services on a full accrual basis including the cost of depreciating fixed assets. See the Management Discussion and Analysis for further explanation of these statements. GASB Statement #34 also requires the desegregation and reporting of major funds.

**Internal Controls** Management of the District is responsible for establishing and maintaining an internal control structure which is designed to ensure that the assets are protected from loss or theft and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principals. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that (1) the cost of control should not exceed the benefit likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of federal, state, and local financial assistance, the District is also responsible for ensuring that an adequate internal control structure is in place to ensure and document compliance with applicable laws and regulations related to these programs. The internal control structure is subject to periodic evaluation by management.

**Budgetary Controls** The District maintains budgetary controls to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the Board of Public Education for Bibb County. Activities of the general, capital projects, special revenue, and debt service funds are included in the annual appropriated budget. The level of budgetary control is established by program within an individual fund. As demonstrated by the statements and schedules included in the financial section of this report, the District continues to meet its responsibility for sound financial management.

The District is required to adopt a final budget no later than June 30<sup>th</sup> at the close of each fiscal year. An administrative budget review team aligns requests with priorities and proposed expenditures with anticipated revenues to arrive at a budget for consideration by the Superintendent and the Board of Education. In accordance with local board policy, a public hearing is held to provide an opportunity for community response to the proposed budget. The FY2006 Governmental Activities expenses amounted to over \$200 million.

**Risk Management** The District's insurance coverage for automobile and property liability is awarded on a one-year basis. Fidelity bonds and Board Member's errors and omissions insurance are renewed annually. Although the District is self-insured, we also obtain excess Workers' Compensation coverage for potential extraordinary catastrophic injuries. The District feels this approach to risk management ensures a quality insurance program and utilizes financial resources in the most efficient and effective way possible.

**Cash Management** The District's cash management process maximizes the use of idle funds by investing balances until needed. Cash temporarily idle during the year was invested in the State's Georgia Fund One (Local Government Investment Pool). As indicated in Note 4 to the Financial Statements, idle funds are also invested in the Federal Home Loan Mortgage, Federal Home Loan Bank, and the Federal National Mortgage Association. We have also invested funds in our local Wachovia and BB&T (Branch Banking & Trust) commercial banks.

In relation to our prudent financial management, the District maintains excellent bond ratings which have produced significant interest savings and is solid evidence of our financial strength and stability. Moody's Investors Service and Standard & Poor's Rating Services, a Division of the McGraw-Hill Companies, Inc., have assigned the ratings of "Aa2" and "AA+," respectively, to the Series 2005 and Series 2006 Bonds, based upon the School District's participation in the State of Georgia Intercept Program. Moody's Investors Service has assigned an underlying rating (without regard to the State of Georgia Intercept Program) of "Aa3" to the Series 2005 and Series 2006 Bonds. Standard & Poor's Ratings Services has assigned an underlying rating (without regard to the State of Georgia Intercept Program) of "AA" to these bonds.

**Independent Audit** The Board requires an annual audit of the District's financial statements by independent certified public accountants selected by the Board. The Board selected Mauldin & Jenkins to perform the audit. This requirement has been complied with and the auditors' opinion has been included in this report.

## **AWARDS**

**Certificates of Achievement and Excellence** The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Bibb County School District for its comprehensive annual financial report for the fiscal year ended June 30, 2005. This was the seventh consecutive year the School District has achieved this prestigious award. The Certificate of Achievement is a prominent national award recognizing conformity with the highest standards for preparation of state and local governmental financial reports. In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized comprehensive annual financial report whose contents conform to program standards. The CAFR must satisfy both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. We believe our current report continues to conform to the Certificate of Achievement program requirements and we are submitting it to the GFOA to determine its eligibility for the current certificate.

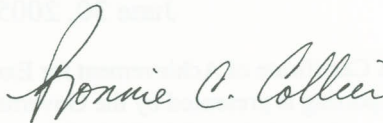

## ACKNOWLEDGEMENTS

We wish to express appreciation to Sharon Roberts, Director of Accounting, and the entire Accounting Department without whose dedicated and committed efforts this report could not have been completed. We also acknowledge the active participation and professional support of Mauldin & Jenkins. Audit Partner Miller Edwards and the staff of Mauldin & Jenkins, particularly Hope Pendergrass and Stephanie Thornton, have been instrumental to the completion of this comprehensive annual financial report. We also extend appreciation to the members of the Board of Public Education for Bibb County for their interest and support in planning and conducting the financial operations of the District in a responsible and progressive manner.

Respectfully submitted,

### Function and Composition

All matters relating to education and operations in the Bibb County School District (District) are governed and controlled by the Board of Public Education for Bibb County (Board) as provided by Georgia law. The Board is legally responsible for the operation of the District and all related policy.

It shall be the purpose of the Board to provide education of the best obtainable quality for the residents of Bibb County within the limitations imposed by the taxpayer's ability to pay and his/her willingness to support the educational program. The Board shall be the representative, not only of the citizens of Bibb County, but of the State Board of Education as well.

The Board currently consists of eight elected members, six elected from single member districts and two elected county-wide. Successors to the initial elected members of the Board are elected in the general election conducted immediately prior to the expiration of the term of office for which they offer as a candidate. The newly elected board members take office on the first day of January following their election and serve for a term of four years and until their successors are duly elected and qualified.

Regular board meetings are held on the third Thursday of each month at 6:00 p.m. usually in the Board Room at the Central Office but sometimes at selected schools.. All meetings are open to the public. Special meetings may be called at other times by the Board President. At all meetings, a majority of the entire membership constitutes a quorum.

# BIBB COUNTY SCHOOL DISTRICT

***Sharon Patterson***  
***Superintendent of Schools***  
***Bibb County School District***

Superintendent Sharon Patterson has more than 30 years of leadership experience in public education as a teacher, principal and system administrator.

Prior to her arrival in Bibb County in 1997, Mrs. Patterson held leadership positions in the Chapel Hill, North Carolina area and in metropolitan Atlanta, where she worked for 20 years. While a principal at East Cobb Middle School, the school was named both a Georgia and a National Blue Ribbon School of Excellence.

Sharon Patterson has attracted statewide recognition for her leadership role in promoting student academic achievement through systemic change. She serves on the Executive Committee and the Coordinating Board of the Georgia Leadership Institute for School Improvement. This public/private partnership provides unique leadership development programs that blend best practices from business and education.

Mrs. Patterson has been the recipient of several awards. She was named the 2005 Georgia Superintendent of the Year and was one of four finalists for the 2006 National Superintendent of the Year. She received the 2005 Georgia School Superintendents Association Bill Barr Leadership Award; the National Award of Merit from Boys and Girls Club of America for her community service; and the Woman of Achievement - Career Women's Network and the Circle of Friends Award from the American Cancer Society for outstanding service.

Sharon Patterson is actively involved with the Macon Economic Development Commission. She is the first Bibb County Superintendent to serve on the Commission. She works closely with the business community to make sure Bibb County Public School students are graduating with the skills needed by local industry. Mrs. Patterson was invited by IBM to study at the Harvard Business School for Change Leadership.

Mrs. Patterson serves as President of the Executive Board of Urban Superintendent's Association of America. She also serves on several other boards such as: Georgia Partnership for Excellence in Education; Greater Macon Chamber of Commerce; Georgia Leadership for School Improvement - Advisory Board; the Macon-Bibb County Health Department; and is a trustee at the Macon Museum of Arts and Sciences.

Mrs. Patterson holds degrees from the University of Missouri in Columbia and the University of Missouri in St. Louis. She also has a six year Specialist Degree from the State University of West Georgia.

Sharon Patterson and her husband, Richard, have one son.

## II. FINANCIAL SECTION

**INDEPENDENT  
AUDIT REPORT**

## INDEPENDENT AUDITOR'S REPORT

---

**To the Members of the Board of Education  
of the Bibb County School District  
Macon, Georgia**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the **Bibb County School District** as of and for the year ended June 30, 2006, which collectively comprise the Bibb County School District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Bibb County School District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Bibb County School District as of June 30, 2006, and the respective changes in financial position and cash flows, where applicable, thereof and the budgetary comparison for the General Fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated September 1, 2006, on our consideration of the Bibb County School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

INDEPENDENT AUDITOR'S REPORT

The Management's Discussion and Analysis (on pages 3 through 11) is not a required part of the basic financial statements, but is supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Bibb County School District's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements and schedules and statistical tables are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U. S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements of the Bibb County School District. The combining and individual nonmajor fund financial statements and schedules and the schedule of expenditures of federal awards have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and statistical tables have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

AND ANALYSIS**

## MANAGEMENT'S DISCUSSION AND ANALYSIS

### INTRODUCTION

This Management's Discussion and Analysis of the Bibb County Public School District's financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2006. The intent of this Management's Discussion and Analysis is to look at the District's financial performance as a whole; readers should also review the transmittal letter, financial statements and notes to the basic financial statements to enhance their understanding of the District's financial performance.

### FINANCIAL HIGHLIGHTS

Key financial highlights for FY2006 are as follows:

In total, combined net assets increased \$12.1 million which represents a 4.8% increase over FY2005.

- ▶ Combined general revenues accounted for \$83.2 million or 36.6% of all revenues. Program specific revenues in the form of charges for services and sales, grants and contributions accounted for \$144.0 million or 63.4% of total revenues of \$227.1 million. Total combined revenues exceeded prior year by \$2.9 million or 1.3%.
- ▶ The District had \$202.9 million in expenses related to governmental activities; only \$131.7 million of these expenses were offset by program specific charges for services, grants, or contributions. General revenues (primarily taxes) of \$83.0 million were used to provide for these programs.
- ▶ The District had \$12.1 million in expenses related to business-type activities; these expenses were offset by program specific charges for services, grants and contributions and general revenues of \$12.4 million.
- ▶ Among major funds, the general fund has \$195.8 million in revenues (including transfers) and \$192.4 million (including transfers) in expenditures. The general fund balance increased to \$27.6 million from \$24.2 million.

### OVERVIEW OF THE FINANCIAL STATEMENTS

The Bibb County Public School District has prepared its annual financial report using a combination of both government-wide financial statements and fund financial statements. The basic financial statements contain three components:

- ▶ Government-wide financial statements including the *Statement of Net Assets* and the *Statement of Activities* which provide a broad, long-term overview of the District's finances in a manner similar to a private sector business;
- ▶ Fund financial statements including the balance sheets that provide a greater level of detail of revenues and expenditures and focus on how well the District has performed in the short term in the most significant funds; and
- ▶ Notes to the basic financial statements.

**Statement of Net Assets and the Statement of Activities.** The *Statement of Net Assets* and *Statement of Activities* provide information about the activities of the whole District, presenting both an aggregate view of the District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short term as well as what remains for future spending. For proprietary funds, the statements offer short and long term financial information about activities the District operates like businesses, such as food services. The fund financial statements also look at the District's most significant funds with all other non-major funds presented in total in one column. In the case of the Bibb County Public School District, the general fund is by far the most significant fund.

The purpose of the *Statement of Net Assets* and the *Statement of Activities* is to answer the question, "How did we do financially during FY2006?" These statements include all assets and liabilities using the accrual basis of accounting similar to the accounting used by most private sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when the cash is received or paid.

These two statements report the District's net assets and changes in those assets. This change in net assets is important because it tells the reader that, for the District as a whole, the financial position of the District has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the District's property tax base, facility conditions, required educational programs, and other factors.

In the *Statement of Net Assets* and the *Statement of Activities*, the District has both governmental and business-type activities:

**Governmental Activities.** Most of the District's programs and services are reported here including instruction, general administration, maintenance and operations, student transportation, after school programs, principals' accounts and various others. Federal funds, state formula aid (QBE) and property taxes finance most of these activities.

**Business-Type Activities.** The District charges fees to help cover the services it provides. These activities include food service, stadium operations, and the District's wellness center.

## REPORTING THE DISTRICT'S MOST SIGNIFICANT FUNDS

Fund financial reports provide detailed information about the District's major funds. The District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the District's most significant funds. The District utilizes governmental, proprietary and fiduciary funds.

**Governmental Funds.** Most of the District's activities are reported in the governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end

available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general governmental operations and basic services it provides. Governmental fund information helps you determine whether there are more financial resources that can be spent in the near future to finance educational programs. The relationship (or difference) between governmental activities (reported in the *Statement of Net Assets* and the *Statement of Activities*) and governmental funds is reconciled in the financial statements. See Note #2 to the Financial Statements. The District's major governmental funds are the General Fund and SPLOST projects.

**Proprietary Funds.** Proprietary funds are activities that a school district operates similar to a business in that it attempts to recover costs through charges to the user. The two types of proprietary funds are the enterprise and internal service funds. Enterprise funds may be used to account for any activity or service that charges a fee to external users to cover the cost of operations, including cost of depreciation and debt service. The District operates its food service, stadiums and district-wide wellness center as enterprise funds. Internal Service funds account for goods and services that are provided to other funds in return for a fee to cover the cost of operations, including depreciation and debt service costs. The District's internal service funds include the central warehouse, print shop, workers' compensation, unemployment compensation, and dental insurance. Proprietary fund statements use the accrual basis of accounting similar to the district-wide statements. The District's print shop was closed during this fiscal year.

**Fiduciary Funds.** The District is the trustee, or fiduciary, for assets that belong to others, such as the dependent care spending account fund, the medical spending account fund and school clubs and organizations within the principals' accounts. The District is responsible for ensuring that the assets reported in these funds are used only for intended purposes and by those to whom the assets belong. The District excludes these activities from the district-wide financial statements because it cannot use the assets to finance its operations.

## **FY2006 FINANCIAL ANALYSIS**

The FY2006 total net assets of \$266.5 million represent a \$12.1 million or 4.8% increase over FY2005. This increase is primarily due to the bond proceeds and new construction derived from the new 2005 Capital Improvement program offset by new bond debt. See the following tables for schedules of net assets and changes in net assets.

**Governmental Activities.** You will note that Instructional program expenses of \$168.1 million represent 82.9% of the total. The next most significant program expense is Maintenance and Operations which totals \$15.7 million and 7.7% of the total. Interest expense of \$1,799,005 represents only 0.9%. Interest expense was primarily attributable to the 2005 and 2006 General Obligation Bond Issues as well as the 2004 Revenue Bonds issued to lease/purchase the District's Central Office building.

**Business-Type Activities.** The most significant business-type activity of the District is the School Nutrition Services division. The majority of its \$12.1 million revenue was derived from grants and contributions (\$9.7 million). The remaining \$2.4 million in revenue was primarily due to charges for meals served.

**Cost of Program Services.** The *Statement of Activities* shows the cost of program services and the charges for services and grants offsetting those services. Table 3 shows, for governmental and business-type activities, the combined total cost of services and the combined net cost of services. That is, it identifies the cost of these services supported by tax revenue and unrestricted federal and state entitlements.

Although program revenues make up a majority (63.4%) of the combined revenues, the District is dependent upon tax revenues for government activities. Thus the FY2006 net cost of services (\$71.1 million) is covered by the \$60.9 million of local property taxes combined with \$15.4 million of Special Purpose Local Option Sales Tax (SPLOST) receipts.

## GOVERNMENTAL FUND BALANCE

Total governmental funds had revenues and other financing sources amounting to \$301 million and expenditures and other financing uses of \$233.3 million for a \$68.0 million increase in fund balance. The total governmental FY2006 ending fund balance is comprised of the following:

**Table 4**  
**Governmental Fund Balances**  
(in thousands)

	FY2006	FY2005	VARIANCE
General	\$ 27,556	\$ 24,162	\$ 3,394

<b>Total Fund Balances</b>	<b>\$ <u>108,377</u></b>	<b>\$ <u>40,361</u></b>	<b>\$ <u>68,016</u></b>

\* Other Governmental Funds include Debt Service, Capital Improvement, and School Discretionary Funds.

**General Fund.** The \$3.4 million increase in the General Fund balance was primarily due to transfers of Reserve Capital Funds to the General Fund.

**Capital (SPLOST) Projects.** The \$61.9 million increase is substantially due to Bond proceeds including premiums received from the issuance of the 2005 and 2006 General Obligation Bonds offset by Debt Service and construction expenditures.

## BUSINESS-TYPE ACTIVITIES - ENTERPRISE FUNDS - NET ASSETS

**School Food Service.** The \$263,777 increase in School Food Service net assets is substantially due to the combined effect of an increase in investment earnings, a gain on the disposal of capital assets, and a decrease in operating expenditures.

## GENERAL FUND BUDGETING HIGHLIGHTS

- ▶ The District's budget is prepared according to Georgia law. The most significant budget fund is the General Fund.
- ▶ For the General Fund, the final budgeted revenues and other financing sources of \$192.0 million exceeded the original budgeted amount of \$185.4 million by \$6.6 million. This difference was primarily due to projected increased federal revenue, particularly Title I.
- ▶ The final budgeted expenditures and other financing uses of \$196.0 million exceeded the original budgeted amount of \$190.0 million by \$6.0 million. This difference was primarily due to a projected increase in federal instructional expenses related to the federal *No Child Left Behind* legislation.
- ▶ Overall, the FY2006 actual General Fund revenues and other financing sources exceeded expenditures and other financial uses by \$3,393,846.

## CAPITAL ASSETS AND DEBT ADMINISTRATION

At the end of fiscal year 2006, the District had \$229.1 million invested in capital assets; net of depreciation. As stated in Table 5, this represents a \$16.5 million or 7.8% increase over FY2005. The increase was primarily due to new school construction and renovations derived from the completion of the 1998 Capital Improvement Program and the beginning of the new 2005 Capital Improvement Program.

## CAPITAL LEASES AND COMPENSATED ABSENCES

At June 30, 2006, the District had \$2.8 million in capital leases outstanding and \$1.1 million in compensated absences. The \$1.1 million overall decrease compared to the prior year is substantially due to the payoff of the Wachovia Bank lease agreement for the purchase of 16 school buses. Table 6 summarizes capital leases and compensated absences outstanding:

## GENERAL OBLIGATION BONDS

The 1998 and 2003 General Obligation Bonds listed in Table 7 were issued by the Bibb County government on behalf of the School District. These bonds are the legal liability of Bibb County and are recorded on the County's books. The 2005 and 2006 General Obligation Bond Issues were issued by the School District and are recorded on our books.

## CURRENT ISSUES

**Classrooms First for Georgia Act.** Senate Bill 390, the Classrooms First for Georgia Act, was voted into law in April, 2006. This legislation, also known as the 65% rule, requires each local school system to spend at least 65% of its total federal, state, and local budget on direct classroom instruction. As defined by the National Center for Education Statistics, direct classroom expenditures include salaries and benefits for teachers and paraprofessionals; costs for instructional materials and supplies; costs associated with classroom related activities, such as field trips, athletics, music and arts; and tuition paid to out-of-state school districts and private institutions for special needs students. Baseline data will be gathered for FY2007 and school districts will have to start compliance with the FY2008 school year. The District is in the process of analyzing operating expenditures to determine what adjustments would be required, if any, to align our budget with the requirements of the 65% rule.

## CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

**CHANGING ISSUES**

Classroom First for Georgia Act, House Bill 581, the Classroom First for Georgia Act was voted into law in April 2008. The legislation, also known as the 50/50 law, requires each local school system to spend at least 50% of its total federal, state, and local budget on direct classroom resources. As defined by the Technical Center for Education Statistics, direct classroom expenditures include salaries and benefits for teachers and non-educational staff for instructional purposes and supplies. Costs associated with classroom-related activities, such as field trips, student meals and other non-instructional activities, are excluded. The 50/50 law school districts will have to start compliance with the FY2010 school year. The District in the process of analyzing operating requirements to determine what adjustments would be required, if any, to sign our budget with the requirements of the 50/50 law.

## RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE FISCAL YEAR ENDED JUNE 30, 2006

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental funds	\$ 68,016,807
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.	17,356,952
The net effect of the disposal of capital assets is to decrease net assets.	(310,039)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	(168,701)
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.	(70,798,681)
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.	(2,161,188)
Internal service funds are used by management to charge costs of various services and benefits to individual funds. The net revenue (expense) of certain activities of internal service funds is reported with governmental activities.	(97,153)

**NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**A. Reporting Entity:**

The Bibb County School District (the "District") was incorporated on August 23, 1872, and provides for a system of education for the children in the City of Macon, Georgia ("Macon") and Bibb County, Georgia ("Bibb County") as authorized by its charter. The District operates under a Board/Superintendent form of government. The eight member Board of Education ("Board") is elected by the public and the Board appoints the superintendent. These eight elected members have decision making authority; the power to designate management; and the ability to significantly influence operations. During the year ended June 30, 2005, the citizens of Bibb County voted to give the Board the power to determine the millage rate at which school taxes are levied and to incur bonded indebtedness with voters' approval. In previous years, the District was reported as a component unit of Bibb County. However, beginning with the fiscal year ended June 30, 2005, the District is reported as its own primary government.

**B. Government-wide and Fund Financial Statements:**

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the non-fiduciary activities of the government. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to those who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

**NOTES TO FINANCIAL STATEMENTS**  
JUNE 30, 2016

**NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**C. Measurement Focus, Basis of Accounting and Basis of Presentation:**

The government-wide financial statements are reported using the *economic resources measurement* focus and the *accrual basis of accounting*, as are the proprietary fund and the fiduciary fund financial statements. Agency funds have no measurement focus; however, they use the accrual basis of accounting to recognize receivables and payables. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement* focus and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, intergovernmental grants, and investment income associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the District.

The District reports the following major governmental funds:

The **general fund** is the District's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The **SPLOST projects fund** accounts for the proceeds of a one percent Special Purpose Local Option Sales Tax. Funds are used for: building renovations; land and building acquisitions; and, construction of new educational and administrative facilities.

### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### C. Measurement Focus, Basis of Accounting and Basis of Presentation: (Continued)

The District reports the following major proprietary fund:

The *school food service fund* accounts for the monies and commodities received from the federal and state governments and the School Food Service's cafeteria sales for the purpose of maintaining the District's breakfast, lunch, and snack programs.

Additionally, the District reports the following fund types:

The *debt service fund* accounts for the payments of principal and interest on long-term debt of governmental funds.

The *capital projects funds* account for the acquisition of capital assets and construction or improvement of major capital projects such as construction of new schools.

The *internal service funds* account for printing, warehouse operations, workers' compensation, unemployment compensation, and dental insurance reserve services that are provided to other departments or funds of the District on a cost-reimbursement basis.

The *private-purpose trust fund* accounts for resources devoted to the presentation of an award to a student and teacher each year at Applying Middle School. All resources of the fund, including any earnings on invested resources, may be used to support this purpose. There is no requirement that any portion of the resources be preserved as capital.

The *agency funds* are used to account for school activity funds related to school wide fundraising activities and to account for flex medical and dependent care for the employees of the District.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The District has elected not to follow subsequent private-sector guidance.

## NOTES TO FINANCIAL STATEMENTS

### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### C. Measurement Focus, Basis of Accounting and Basis of Presentation: (Continued)

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the District's school food service program and the general fund. Elimination of these charges would distort the direct costs reported for the various functions concerned.

Amounts reported as *program revenues* include 1) charges for services provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish *operating* revenues and expenses from *non-operating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise funds and of the District's internal service funds are charges for goods and services provided. Operating expenses of the enterprise funds and internal service funds include the cost of these goods and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

## NOTES TO FINANCIAL STATEMENTS

---

### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### **D. Cash and Investments:**

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

State statutes authorize the District to invest in: obligations of the United States, the State of Georgia and other political subdivisions of the State of Georgia, and other states; prime banker's acceptances; repurchase agreements; and the Georgia local government investment pool (Georgia Fund 1). Georgia Fund 1, created by OCGA 36-83-8, is a stable net asset value investment pool which follows Standard and Poor's criteria for AAAM rated money market funds and is regulated by the Georgia Office of Treasury and Fiscal Services. However, Georgia Fund 1 operates in a manner consistent with Rule 2a-7 of the Investment Company Act of 1940 and is considered to be a 2a-7 like pool. The pool is not registered with the SEC as an investment company. The pool's primary objectives are safety of capital, investment income, liquidity and diversification while maintaining principal (\$1 per share value). Net asset value is calculated weekly to ensure stability. The pool distributes earnings (net of management fees) on a monthly basis and determines participant's shares sold and redeemed based on a \$1 per share value. The fair value of the District's position in the pool is the same as the value of pool shares (\$1 per share value).

#### **E. Receivables and Payables:**

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year as well as all other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

#### **F. On-Behalf Payments:**

The State of Georgia makes certain health insurance and pension plan payments on behalf of the District for its employees. The District records these payments as both a revenue and an expenditure in the General Fund. The total of the on-behalf payments for the fiscal year ended June 30, 2006 was \$3,797,480.

## NOTES TO FINANCIAL STATEMENTS

### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### G. Inventories and Prepaid Items:

Inventories of the School Food Service Fund are stated at cost using the first-in, first-out method. Inventories of the Warehouse Fund are stated at cost using the weighted average method. Donated food commodities are recorded at fair value. The District utilizes the consumption method to recognize inventory usage. Under the consumption method, inventories are recorded as expenses when used rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

#### H. Capital Assets:

Capital assets, which include property, plant, and equipment, are reported in the applicable governmental or business-type activities column in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Capital assets are depreciated using the straight line method over the following estimated useful lives:

<u>Asset</u>	<u>Years</u>
Land improvements	20
Buildings	25-50
Equipment	5-20

#### I. Long-Term Obligations:

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. In the fund financial statements, governmental fund types report the face amount of debt issued as other financing sources.

NOTES TO FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

J. Compensated Absences:

Accumulated unpaid sick leave costs are not vested and are not accrued in any fund, but are recognized as expenditures or expenses, when paid. Accumulated unpaid vacation costs are accrued when incurred in the government-wide, proprietary, and fiduciary fund financial statements.

K. Fund Equity:

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

L. Use of Estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

## NOTES TO FINANCIAL STATEMENTS

### NOTE 2. RECONCILIATION OF GOVERNMENT-WIDE FINANCIAL STATEMENTS AND FUND FINANCIAL STATEMENTS

#### A. Explanation of Certain Differences Between the Governmental Fund Balance Sheet and the Government-wide Statement of Net Assets

The Governmental Fund Balance Sheet includes a reconciliation between *fund balance – total governmental funds* and *net assets – governmental activities* as reported in the government-wide statement of net assets. One element of that reconciliation explains that “long-term liabilities are not due and payable in the current period and, therefore, are not reported in the funds.” The details of this \$77,809,760 difference are as follows:

Capital leases payable	\$ (2,825,000)
Bonds payable	(70,535,000)
Plus: deferred issuance costs and unamortized premium	(1,593,613)
Accrued interest payable	(1,783,751)
Compensated absences	<u>(1,072,396)</u>
Net adjustment to reduce <i>fund balance - total governmental funds</i> to arrive at <i>net assets - governmental activities</i>	<u><u>\$ (77,809,760)</u></u>

#### B. Explanation of Certain Differences between the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances and the Government-wide Statement of Activities

The Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances includes a reconciliation between *net changes in fund balances – total governmental funds* and *changes in net assets of governmental activities* as reported in the government-wide statement of activities. One element of that reconciliation explains that “Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.” The details of this \$17,356,952 difference are as follows:

Capital outlay	\$ 23,323,194
Capital expenditures below threshold allocated to instruction	(385,660)
Depreciation expense	<u>(5,580,582)</u>
Net adjustment to increase <i>net changes in fund balances - total governmental funds</i> to arrive at <i>changes in net assets of governmental activities</i>	<u><u>\$ 17,356,952</u></u>

## NOTES TO FINANCIAL STATEMENTS

### NOTE 2. RECONCILIATION OF GOVERNMENT-WIDE FINANCIAL STATEMENTS AND FUND FINANCIAL STATEMENTS (CONTINUED)

Another element of that reconciliation states that "the issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds." The details of this \$70,798,681 difference are as follows:

Bonds issued	\$ (70,535,000)
Principal repayments	1,446,967
Unamortized issue costs and premiums	(1,696,462)
Amortization of bond issuance costs	(14,186)
Net adjustment to decrease <i>net changes in fund balances - total governmental funds</i> to arrive at <i>changes in net assets of governmental activities</i>	\$ (70,798,681)

### NOTE 3. LEGAL COMPLIANCE – BUDGETS

**Budgetary Data.** The District adopts an annual budget on a basis consistent with accounting principles generally accepted in the United States of America for the general fund, the debt service fund, and the Capital Improvements fund. The SPLOST projects fund adopts a project length budget. Proprietary fund budgets are prepared and utilized as a management tool to assess the operations of the enterprise and internal service funds. All annual appropriations lapse at fiscal year end.

The budget is a complete financial plan for the District's fiscal year, usually the school year, and is based upon careful estimates of expenditures and probable incomes. The District's budget consists of the educational plan, expenditures for the educational plan and sources and amount of revenue. Prior to the first Monday in June, the administration of the District prepares and submits a proposed budget to the Board for approval. After the budget has been tentatively approved by the Board, the budget must be advertised, in form and manner to be prescribed by the Board, at least one time in a newspaper of general circulation in Bibb County. Subsequent to this procedure, the Board shall revise the budget as necessary and adopt a final school budget.

## NOTES TO FINANCIAL STATEMENTS

### NOTE 3. LEGAL COMPLIANCE – BUDGETS (CONTINUED)

The approved budget shall be certified and forwarded to the Georgia Department of Education for final approval. The budget is amended during the first six months and a mid-year review budget is prepared and approved by the Board. The budget is formally adopted at the program level and the legal level of the District's budgetary controls is the program level. Any amendments made after mid-year review may be approved by the District's management.

### NOTE 4. DEPOSITS AND INVESTMENTS

**Credit Risk.** As of June 30, 2006, the District's investments were all rated AAA by Standard & Poor's.

As of June 30, 2006, the District had the following investments:

Investment	Maturities	Fair Value
Georgia Fund 1	28 day weighted average	\$ 40,025,638
Federal Home Loan Mortgage	February 27, 2007	13,688,505
Federal National Mortgage Association	June 14, 2007	5,896,200
Federal Home Loan Bank	January 12, 2007	2,981,100
Federal Home Loan Bank	December 21, 2007	11,907,600
Federal National Mortgage Association	January 19, 2007	989,600
Federal Home Loan Bank	January 29, 2007	998,400
<b>Total Investments</b>		<b>\$ 76,487,043</b>

**Interest Rate Risk.** As a means of limiting its exposure to fair value losses arising from rising interest rates, the District's investment policy limits all operating investments to instruments that mature within one year. All non-operating investments are best matched with their cash flow needs, with investment life of no more than five years.

**NOTES TO FINANCIAL STATEMENTS**

**NOTE 4. DEPOSITS AND INVESTMENTS (CONTINUED)**

**Custodial Credit Risk – Deposits.** Custodial risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. State statutes require all deposits and investments (other than federal and state government instruments) to be collateralized by depository insurance, obligations of the U.S. government, or bonds of public authorities, counties, or municipalities. As of June 30, 2006, the District's bank balance of \$43,336,604 was fully collateralized in compliance with the state requirements. The investments of the District were all invested in state government instruments.

**NOTE 5. INTERGOVERNMENTAL RECEIVABLES**

Intergovernmental receivables at June 30, 2006, for the District's individual major funds and nonmajor funds in the aggregate, including the applicable allowances for uncollectible accounts are as follows:

	General	SPLOST Projects	School Food Service	Nonmajor Enterprise Funds
Intergovernmental	\$ 24,155,656	\$ 5,088,664	\$ 211,701	\$ 165,497
Less allowance for uncollectibles	1,042,483	-	-	-
Net total receivable	<u>\$ 23,113,173</u>	<u>\$ 5,088,664</u>	<u>\$ 211,701</u>	<u>\$ 165,497</u>

**NOTES TO FINANCIAL STATEMENTS**

**NOTE 6. PROPERTY TAXES**

Bibb County bills and collects property taxes for the District. Property taxes are levied (assessed) on all taxable real, public utility and personal property (including vehicles) located within the County as of January 1st of each year. Assessed values for property tax purposes are determined by the Bibb County Board of Tax Assessors for all property except public utilities and motor vehicles. Assessed value is set at 40% of market value. The State of Georgia establishes values for public utilities and motor vehicles.

Real property taxes for 2005 were levied on July 7, 2005, and are due in two installments - the first payment was due October 7, 2005, and the final payment was due by November 15, 2005. Bibb County may place liens on property once the related tax payments become delinquent. The property tax receivable allowance is equal to 30% of outstanding property taxes at June 30, 2006.

Vehicle personal property taxes are due upon each respective payor's date of birth on an annual basis.

**NOTES TO FINANCIAL STATEMENTS**

**NOTE 8. LONG-TERM DEBT**

**Capital Leases.** The District issued 2004 Lease Revenue and Refunding Bonds in the original amount of \$3,135,000 to: (a) renovate, improve and equip certain portions of the leased premises, (b) currently refund the Issuer's Lease Revenue Bonds, Series 1993A, and (c) to pay all expenses incident to accomplishing the foregoing. Under this capital lease, the District is required to pay base rentals directly to the trustee annually on September 30, in amounts sufficient to provide for payment of the principal and interest on the bonds on the ensuing interest payment date. The 2004 series Lease Revenue Bond carries a variable rate of interest with it. The rate is computed at a weekly rate, determined by the Remarketing Agent, having due regard for the prevailing financial market conditions for revenue bonds. The rate shall be computed on the first business day of each interest period. However, the bonds are not to exceed the lesser of (a) 12% per annum (the "Ceiling Rate") and (b) the maximum rate permitted by law. In connection with the issuance of the bonds, Bibb County has entered into an amended Guaranty Agreement dated September 1, 2004, (the "Guaranty") with the District and the trustee; pursuant to the Guaranty, Bibb County absolutely and unconditionally guarantees the obligation of the District to pay base rentals under the lease. The outstanding balance on the Series 2004 bonds at June 30, 2006, is \$2,825,000.

During the year ended June 30, 2004, the District entered into a capital lease agreement for the purchase of new buses in the total amount of \$1,398,954 to be repaid in monthly installments of \$25,052 through June 2009 with an interest rate of 2.80%. The outstanding balance on this lease as of June 30, 2006 was \$1,136,967 which was paid off during the year ended June 30, 2006.

The following is an analysis of assets under capital leases as of June 30, 2006:

			<u>Governmental</u>

There is \$4,772,652 of restricted net assets available in the Debt Service Fund to service the capital lease contractual obligations and 2005 and 2006 general obligations bonds.

**NOTES TO FINANCIAL STATEMENTS**

**NOTE 8. LONG-TERM DEBT (CONTINUED)**

Prior to obtaining its fiscal independence during fiscal year 2006, the District historically issued long-term debt through Bibb County. Such long-term debt is as follows:

\$17,705,000 2003 General Obligation School Refunding Bonds, due in annual installments of \$403,035 to \$4,539,175 through January 1, 2009, interest at 2.00 to 5.00 percent.	<u>\$ 11,045,000</u>
--	----------------------

As these are General Obligation Bond Issues, taxes are levied by Bibb County to provide for the amortization of these issues.

**NOTE 9. OPERATING LEASES**

The School District, as lessor, leases excess space in its central office building to various private companies and accounts for these leases as operating leases. Lease terms vary and extend through October 31, 2011. Rental revenues under these operating leases during the year ended June 30, 2006 were \$777,130.

Minimum future rentals to be received under operating leases are as follows:

2007	\$ 676,113
2008	631,435
2009	607,219
2010	579,248

2012	95,798
	<u>\$ 2,949,092</u>

**NOTES TO FINANCIAL STATEMENTS**

**NOTE 10. INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS**

The composition of interfund balances as of June 30, 2006 is as follows:

Due to/from other funds:

<u>Funds</u>	<u>Due From Other Funds</u>	<u>Due To Other Funds</u>
General Fund	\$ 398,145	\$ 15,975
SPLOST Fund	755	173,240
Nonmajor governmental funds	-	758
Total governmental funds	<u>398,900</u>	<u>189,973</u>
School Food Service	15,220	58,513
Nonmajor enterprise funds	-	168,457
Total enterprise funds	<u>15,220</u>	<u>226,970</u>
Internal service funds	2,823	-
	<u>\$ 416,943</u>	<u>\$ 416,943</u>

These balances resulted from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made.

Interfund transfers:

<u>Funds</u>	<u>Transfers In</u>	<u>Transfers Out</u>
General Fund	\$ 3,096,814	\$ 1,025,113
SPLOST Fund	-	5,036,811
Nonmajor governmental funds	5,908,631	3,076,809
Total governmental funds	<u>9,005,445</u>	<u>9,138,733</u>
Nonmajor enterprise funds	21,600	-
Internal service funds	131,693	20,005
	<u>\$ 9,158,738</u>	<u>\$ 9,158,738</u>

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that the statute or budget requires to expend them, (2) move receipts restricted to debt service from the funds collecting the receipts to the debt service fund as debt service payments become due, and (3) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

### NOTE 11. OTHER POST EMPLOYMENT BENEFITS

The District extends the coverage of certain post retirement health care and life insurance benefits for retired employees. All costs of retiree health care and life insurance benefits are paid for by the retired employees.

### NOTE 12. RETIREMENT PLANS

**Teachers Retirement System.** Substantially all teachers, administrators, and clerical personnel employed by the District are members of the Teachers Retirement System of Georgia (TRS), a cost-sharing multiple employer public employee retirement system administered by the TRS Board of Trustees. TRS provides retirement and disability benefits, and death benefits to plan members and beneficiaries. Title 47, Chapter 3 of the Official Code of Georgia Annotated, assigns the authority to establish and amend benefit provisions to the TRS Board of Trustees. The TRS Board of Trustees issues a publicly available financial report that includes financial statements and required supplementary information for TRS. That report may be obtained by writing to TRS of Georgia, Two Northside 75, Suite 400, Atlanta GA 30331, or by calling 1-800-352-0650.

Covered employees are required by state law to contribute 5% of their annual covered salary to the plan and the District is required to contribute 9.24% of current covered payroll. Covered employees' contributions for the years ended June 30, 2006, 2005, and 2004, were \$5,479,635, \$5,223,584, and \$5,008,419, respectively. The District's contributions to TRS for the years ended June 30, 2006, 2005, and 2004, were \$10,150,439, \$9,633,134, and \$9,209,335, respectively, which equal the required contribution for each year.

Active members may retire and receive benefits after 30 years of creditable service regardless of age, or after 10 years of creditable service and reaching age 60. Upon retirement, an employee receives a retirement benefit, payable monthly for life. The amount is determined by multiplying 2% by the years of service up to 40 years. This amount in turn is multiplied by the employee's average monthly salary for the two highest paid consecutive years of service. Early retirement benefits are reduced by the lesser of 1/12 of 7% for each month the member is below age 60, or by 7% for each year or fraction thereof by which the member has less than 30 years of service. It is also assumed that certain cost-of-living adjustments, based on the CPI, will be made in future years. Retirement benefits are payable monthly for life. Options are available for distribution of the member's monthly pension at a reduced rate to a designated beneficiary at the member's death.

## NOTES TO FINANCIAL STATEMENTS

### NOTE 12. RETIREMENT PLANS (CONTINUED)

**Public School Employees Retirement System.** Substantially all bus drivers, maintenance, custodial, and lunchroom personnel employed by the District are members of the Public School Employees Retirement System of Georgia (PSERS), which is also a cost-sharing multiple employer public employee retirement system. The Board of the Public School Employees Retirement System of Georgia issues a publicly available financial report that includes financial statements and supplementary information for PSERS. That report may be obtained by writing Public School Employee Retirement System, Two Northside 75, Atlanta, Georgia 30318-7778, or by calling 1-800-805-4609.

PSERS provides service retirement, disability retirement and survivor's benefits for its members. A member is eligible for normal service retirement after 10 years of service and attainment of age 65. A member applying for service retirement with 10 years of service and retirees between the ages of 60 and 65 receive a reduced benefit. Monthly retirement benefits paid to members are equal to eight dollars per month multiplied by the number of years of creditable service. Retirement provisions include death and disability benefits. Benefits are established by state statute.

Covered employees are required by state statute to contribute four dollars per month for the nine month school year. Unlike TRS, the District makes no contribution to PSERS. Total contributions from employees of the District made during the fiscal year ended June 30, 2006, totaled \$23,268.

The State of Georgia is required by statute to make an annual contribution to PSERS based upon an actuarial calculation. The state's contribution for employees for the fiscal year ended June 30, 2006 for District employees was \$26,794.

Members become fully vested after 10 years of service. If a member terminates with less than 10 years of service, no vesting of employer contributions occurs, but the member's contributions are refunded with interest.

There were 626 employees covered under PSERS for the year ended June 30, 2006.

## NOTES TO FINANCIAL STATEMENTS

### NOTE 13. DEFERRED COMPENSATION PLAN

The District offers its employees a tax deferred annuity plan created in accordance with Internal Revenue Code Section 403b. The plan, available to all District employees, permits them to defer a portion of their salary until future years. Participation in the plan is optional.

It is the opinion of the District's legal counsel that the District has no liability for losses under the plan, but does have the duty of due care that would be required of an ordinary prudent investor. The District believes these assets are not available to satisfy the claims of general creditors in the future.

### NOTE 14. RISK MANAGEMENT

The District is exposed to various risks of loss for claims associated with torts; theft of, damage to and destruction of assets; errors and omissions; natural disaster; workers' compensation; unemployment compensation; and dental benefits.

The District is self-insured for workers' compensation, unemployment compensation, and dental benefits. Premiums are paid into internal service funds by user funds and are available to pay claims, claim reserves, and administrative costs of the program. These interfund premiums are recognized as revenue in the internal service funds. The premiums are calculated on the basis of the percentage of that fund's payroll to total payroll. Liabilities are reported when it is probable that a loss has been incurred and the amount can be reasonably estimated including amounts of claims incurred but not yet reported. An excess coverage insurance policy covers individual claims in excess of \$500,000 loss per occurrence, up to the statutory limit. The District has not experienced any significant reduction in insurance coverage from the previous years nor has it paid any settlements in excess of insurance coverage in the past three years.

**NOTES TO FINANCIAL STATEMENTS**

**NOTE 14. RISK MANAGEMENT (CONTINUED)**

Changes in the balances of claims liabilities for the past two fiscal years for the funds for which the District is self-insured are as follows:

**NOTE 15. COMMITMENTS AND CONTINGENCIES**

The District is involved in a number of legal matters which either have or could result in litigation. Although the outcome of these lawsuits is not presently determinable, in the opinion of the District's legal counsel, the resolution of these matters will not have a material adverse effect on the financial condition of the District.

## NOTES TO FINANCIAL STATEMENTS

### NOTE 15. COMMITMENTS AND CONTINGENCIES (CONTINUED)

The District participates in numerous state and federal grant programs, which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the District has not complied with the rules and regulations governing grants, refunds of any money received may be required and the collectibility of any related receivable at June 30, 2006, may be impaired. In the opinion of the District, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying basic financial statements for such contingencies.

The District is committed under outstanding construction contracts in the Capital Projects funds in the amount of \$11,631,535. Construction contracts include new school construction and expansion and renovation of existing facilities.

<sup>1</sup> Per Audited Financial Statements

<sup>2</sup> Continual reductions in Capital Projects Funds are primarily due to increases in salary and benefits and decreases in overall funding thus resulting in less funding available for capital expenditures.

<sup>3</sup> Several positions remained vacant during this fiscal year resulting in a large excess of revenues over expenditures.

Notes: 1997 amounts are not presented due to several prior period adjustments posted as part of the June 30, 1998 audit.

**Notes**

Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the County. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of Bibb County. This process recognizes that, when considering the government's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt of each overlapping government.

#### **IV. SINGLE AUDIT SECTION**

CERTIFIED PUBLIC ACCOUNTANTS, LLC

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING  
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT  
OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE  
WITH GOVERNMENT AUDITING STANDARDS**

---

**To the Members of the Board of Education  
of the Bibb County School District  
Macon, Georgia**

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Bibb County School District as of and for the year ended June 30, 2006, which collectively comprise the Bibb County School District's basic financial statements and have issued our report thereon dated September 1, 2006. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

**Internal Control Over Financial Reporting**

In planning and performing our audit, we considered the Bibb County School District's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinions on the financial statements and not to provide an opinion on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING  
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT  
WITH GOVERNMENT AUDITING STANDARDS

**Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Bibb County School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to management of the Bibb County School District in a separate letter dated September 1, 2006.

This report is intended solely for the information and use of the audit committee, management, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

**REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE  
TO EACH MAJOR PROGRAM AND ON INTERNAL CONTROL  
OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133**

---

**To the Members of the Board of Education  
of the Bibb County School District  
Macon, Georgia**

**Compliance**

We have audited the compliance of the Bibb County School District with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2006. The Bibb County School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the Bibb County School District's management. Our responsibility is to express an opinion on the Bibb County School District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Bibb County School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the Bibb County School District's compliance with those requirements.

In our opinion, the Bibb County School District complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2006. However, the results of our auditing procedures disclosed an instance of noncompliance with those requirements, which is described in the accompanying schedule of findings and questioned costs as item 06-2.

REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE  
TO EACH MAJOR PROGRAM AND ON INTERNAL CONTROL  
OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

**Internal Control Over Compliance**

The management of the Bibb County School District is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the Bibb County School District's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on the internal control over compliance in accordance with OMB Circular A-133.

We noted a certain matter involving internal control over compliance and its operation that we consider to be a reportable condition. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of internal control over compliance that, in our judgment, could adversely affect the Bibb County School District's ability to administer a major federal program in accordance with the applicable requirements of laws, regulations, contracts, and grants. The reportable condition is described in the accompanying schedule of findings and questioned costs as item 06-01.

A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with the applicable requirements of laws, regulations, contracts, and grants caused by error or fraud that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be reportable conditions, and accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, we do not believe the reportable condition described above is a material weakness.

This report is intended solely for the information and use of the audit committee, management, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

## SCHEDULE OF FINDINGS AND QUESTIONED COSTS FOR THE YEAR ENDED JUNE 30, 2006

---

### B. FINDINGS: FINANCIAL STATEMENTS AUDIT

None reported.

### C. FINDINGS AND QUESTIONED COSTS: MAJOR FEDERAL AWARD PROGRAMS AUDIT

#### 06-1: Proper approval of disbursement under the Title I grant

Criteria: Sound internal controls require policies and procedures be in place to monitor expenditures under federal programs to ensure grant funds are only spent on allowable expenditures.

Condition: Two of the 40 expenditures tested were not properly approved prior to disbursement of funds.

Context: Lack of proper approval was noted during control testing related to the grant.

Effect: Without proper approval and review, unallowable expenditures could be charged to the grant

Cause: Approval of the expenditures did not occur due to oversight on the part of School District officials.

Recommendation: The School District should take appropriate measures to ensure that all expenditures are approved to prevent the possibility of unallowable expenditures being charged to the grant.

Views of Responsible Officials: We concur. We will take appropriate measures to ensure that all expenditures are properly reviewed and approved prior to disbursement.

#### 06-2: Lack of consolidation of Title I funds with other federal grant funds

Criteria: Per the Title I grant requirements, Title I grant funds must be consolidated with other federal funds in schoolwide Title I programs

Condition: The School District did not consolidate Title I funds with other federal grant funds.

Context: During our audit the Title I program, we noted that Title I funds were not being consolidated with other federal grant funds.

Effect: By not consolidating funds, the School District violated the requirements of the Title I grant.

### C. FINDINGS AND QUESTIONED COSTS: MAJOR FEDERAL AWARD PROGRAMS AUDIT (CONTINUED)

#### 06-2: Lack of consolidation of Title I funds with other federal grant funds (Continued)

Cause: In prior years, the state did not enforce this grant requirement. The state is not requiring full implementation of this grant requirement until fiscal year 2009, however, the requirement is a federal requirement and thus must be followed by all school districts regardless of the requirements of the state pass-through entity.

Recommendation: The School District should take appropriate measures to begin consolidating Title I funds with other federal grant funds as required by the grant.

Views of Responsible Officials: We concur. We will take appropriate measures to begin consolidating Title I funds as appropriate under the grant requirements.

### D. STATUS OF PRIOR YEAR AUDIT FINDINGS

22-2: Lack of documentation of Title I funds with other federal grant funds (continued)

Compliance: In prior years, the state did not enforce the grant requirement. The state is not reporting the implementation of the grant requirement until fiscal year 2009. However, the requirement is a federal requirement and the state is required to enforce it. The requirement of the state is not through only.

**(This Page Intentionally Left Blank)**

Implementation: The District should report the specific measures to begin conducting Title I funds with other federal grant funds as required by the grant.

Plan of Correction: The District should report the specific measures to begin conducting Title I funds as required by the grant requirement.
